

BASIS 904zz

QSControl.net Digital System

THX

QSControl.net, QSC's next generation network audio system, achieves the seamless integration of the company's signal transport, control, processing, and monitoring technologies. QSControl.net brings together QSC's digital, power amplification and loudspeaker products into a unified system that enables the user to administrate it all via a fully integrated graphical user interface. The new generation BASIS devices are designed to operate under the company's QSControl.net platform.

BASIS 904zz

The BASIS platform meets the control, monitoring, signal transport and processing needs of amplification and loudspeaker systems over an Ethernet network. The BASIS 904zz units combine three distinct QSC technologies within a single hardware unit. Amplifier and loudspeaker control, monitoring and protection, configurable DSP, and CobraNet™ audio transport are seamlessly integrated into one powerful single RU package.

Through QSControl.net, QSC's BASIS and next-generation RAVE and DSP products can be networked together and controlled from a single software interface. In addition, multiple networked computers can be set up to control and monitor all of the units simultaneously.

Fixed Latency DSP

Users of most other configurable DSP systems are familiar with a variable latency inherent in the processing configuration. Add more processing blocks and you also add delay, whether you want it or not. QSC's DSP engine is unique in having a short and fixed processing latency through the DSP subsystem. QSC's fixed latency DSP is configurable DSP that stays fast and predictable from one configuration to the next.

Inputs	DSP	Outputs	
 CobraNet		DataPort	CobraNet
 24 of 32	24 x 24	8(16 channels)	32

Features

- · Amplifier and loudspeaker control, monitoring and protection
- · Configurable DSP functions and signal paths
- · Fixed latency DSP engine
- Ethernet controllable
- · CobraNet audio transport with new intuitive GUI
- Two Ethernet ports CobraNet and control can be run over a single cable or be divided between the two ports. The CobraNet port is 100Base-T. The control port is 10Base-T
- · Each unit can store eight design configurations that can be changed on the fly
- · Snapshots can recall config or block and/or parameter settings
- THX™ approved for professional cinema applications

DSP functions include, but are not limited to:

- · Matrix mixer any size, up to 24 x 24
- Automixers gain sharing
- Routers any size, up to 24 x 24
- · Gain controls any channel count, up to 24
- · Graphic equalizers
- Filters high-pass, low-pass, all-pass, shelf, parametric, parametric shelf, Butterworth high and low-pass, Linkwitz-Riley high and low-pass, Bessel-Thomson high and low-pass
- Crossovers Linkwitz-Riley, Butterworth, Bessel-Thomson in-phase, Bessel-Thomson symmetrical, 2-way, 3-way, and 4-way general purpose adjustable
- · Compressors, peak limiters, AGC's, gates, dynamics processor
- Duckers up to 8 channels, up to 60 seconds fade in and fade out times, priority mix
- · Pink noise, white noise, sine generators
- · Delays
- Macros user-definable custom blocks with password protection

PERFORMANCE

Dynamic Range (AES-17, -60 dB method, all sensitivities)

> 112 dB Unweighted A weighted > 115 dB

Distortion (20 Hz - 20 kHz, all sensitivities)

< 0.009% THD+N +4 dBu (maximum) 2 dB below clip (maximum) < 0.009% THD+N

Crosstalk (20 Hz - 20 kHz)

Inter-channel (maximum) > 75 dB Inter-channel (typical) > 90 dB Intra-channel (maximum) > 85 dB Intra-channel (typical) > 100 dB

Frequency Response

20 Hz – 20 kHz (maximum) 20 Hz – 20 kHz (typical) +/- 0.5 dB +/- 0.2 dB **Audio Converters** 24 bit, 48 kHz (output) Mute Infinite attenuation

Delay

Standard CobraNet™ latency Low latency 6.313 milliseconds 3.646 milliseconds Network to BASIS

CobraNet input through full DSP chain to analog output

INPUTS/OUTPUTS

Program Outputs 16 outputs

Connector Type 8 HD-15 DataPort connections

QSC DataPort cable, QSC p-n DPC-x ("x" designates cable length in feet) Cable Type

Available "Stock" Lengths 1, 2, 3, 4, 5, 6, 10, and 20 ft., custom lengths available

Maximum Qualified Length 328 ft. (100 m) using QSC DP cable only / Non QSC cable limited to 6 ft. (audio only)

Control Room Foldback Monitoring

Connector type 5-pin "phoenix style" (a.k.a. "euro style") detachable terminal blocks Pinout 1:+(input) / 2:-(input) / 3:CHASSIS GND / 4:-(output) / 5:+(output) Tap Points

8 internal input / 8 internal output / 8 amplifier (pre-, post-, amplifier) software selectable

Monitor Input

Monitor Signal (unit off) Unity gain connection, relay bypass

Maximum Level +21 dBu Impedance (nominal) 10k ohms CMRR, 20 Hz - 20 kHz > 54 dB

Monitor Output

Monitor Sum of monitor input and signal from internal monitor tap point(s)

Frequency Response (20 Hz - 20 kHz) +/- 0.5 dB Distortion (20 Hz - 20 kHz) < 0.05% at +4 dBu > 90 dB Noise Floor Output Impedance (nominal) 100Ω Output Load (minimum) 600Q

Monitor Level

Control Range (nominal) 0 dB to -95.5 dB in 0.5 dB steps

CONTROL INPUTS/OUTOUTS

Relay Outputs 2 discrete floating relay switch outputs

3-pin "phoenix style" (a.k.a. "euro style") detachable terminal blocks Connector Type

Configuration Electromechanical relay 1:NC / 2:NO / 3:COM Pinout Switching Capacity (nominal) 1A 30 VDC **Logic Outputs** 4 discrete outputs

Connector Type 2-pin "phoenix style" (a.k.a. "euro style") detachable terminal blocks

Single-ended, TTL compatible Configuration 1:+(Signal) / 2:-(CHASSIS GND) Pinout

6 discrete inputs for TTL logic, voltage control or passive resistance 2-pin "phoenix style" (a.k.a. "euro style") detachable terminal blocks Omni Inputs Connector Type

Configuration Single-ended, ground referenced Pinout 1:+(Signal) / 2:-(CHASSIS GND) Normal Operating Range Reads signals between 0-5 V nominally

Use 10k ohms for full range Potentiometer Operation Voltage Tolerance +/- 48 V

0.5 mA with 10k pot (for passive resistive controls) Current Output Female DB9 connector (setup and diagnostics purposes only) RS-232 Port

QSControl Port Neutrik Ethercon RJ45 ruggedized data connector CobraNet Port Neutrik Ethercon RJ45 ruggedized data connector
